

LARGE ROLLER BLIND

When you need a roller blind system that covers large windows effortlessly and is built to last, Helios really delivers.

OVERVIEW

- Strong and durable system
- 12 year warranty
- Sizes up to 4m wide, 6m drop, 16m²
- Available with headbox or fascia

SYSTEM DETAILS

Helios roller blinds are built for large windows and demanding applications.

Helios shades can be operated manually via chain or crank handle, or motorised with many control options available. Multiple blinds can be coupled together to work from a single drive.

Aesthetically, the system can be enhanced with aluminium headbox or fascia sections, which can be powder coated to any RAL colour.

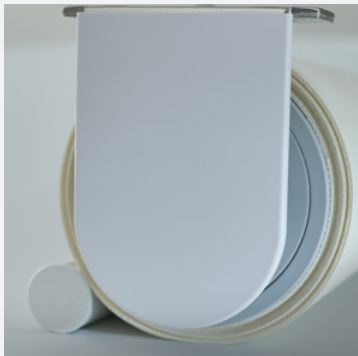

USES & APPLICATIONS

The Helios system is engineered to be secure, safe and smooth to operate, providing a great user experience and feeling of quality. With so many options to enhance the design and to integrate the controls, you can configure Helios to suit virtually any application or budget.

Large sizes and the ability to couple systems together mean that windows can be shaded in the most economical and aesthetically pleasing way possible.

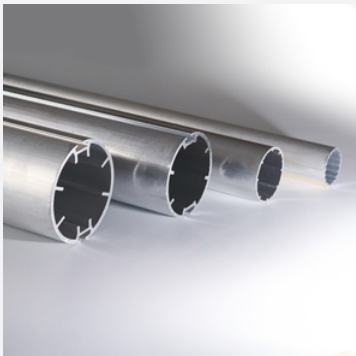

SHADE & LIGHT

ROBUST BRACKETS

- 3mm Steel Construction
- Securely supports large or heavy blinds
- Colour coordinated bracket covers

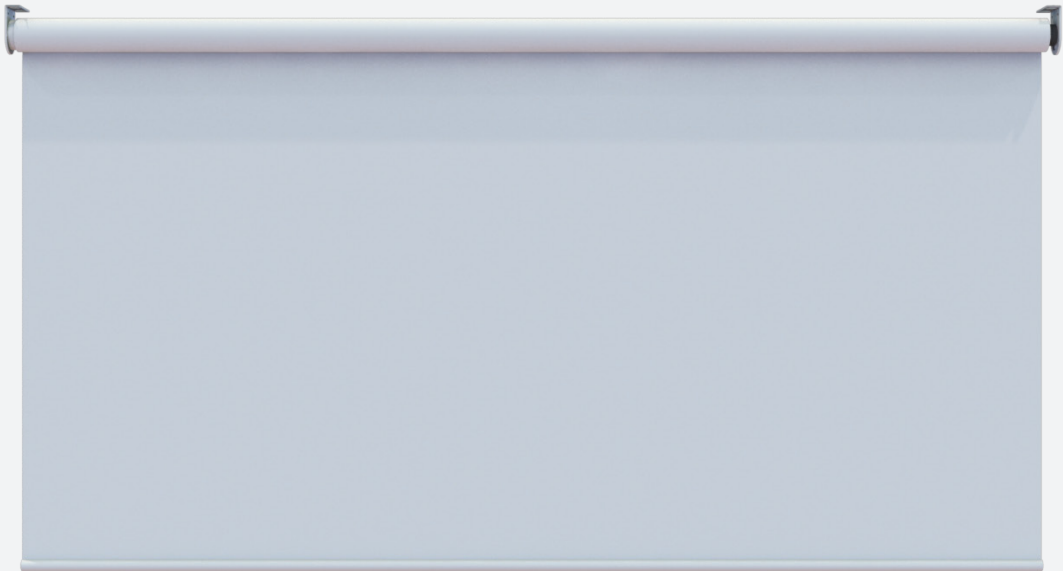

EXTRUDED ALUMINIUM ROLLER

- Strong roller tubes to minimise deflection
- Wide range from 38mm-75mm dia
- Appropriate size selected for blind size/weight

ADJUSTABLE END BEARING

- Enables levelling of roller
- Removes need for packing brackets
- Easy to adjust after installation

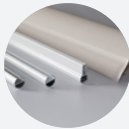

CONTROL OPTIONS

- Metal Chain
- Crank handle with reduction gear
- 240V motorised
- Low Voltage or battery motorised

HEMBAR OPTIONS

- Type 1 - 20mm round aluminium
- Type 2 - Teardrop shape aluminium
- PK-S - Sealed Fabric Pocket
- Custom Options

FABRIC OPTIONS
